

# CLAYTON L. BURLISON

## Objective

Information technology professional with a background in managing Apple computers. Ability to identify problems, research proven solutions to the issue at hand, and implement a solution.

## Education

University of Texas in Arlington	Bachelor of Computer Science	Arlington, Texas	Pending
Tarrant County College	Associate of Arts	Hurst, Texas	2014
Haltom High School	4.0 Grade Point Average	Haltom City, Texas	2010 Graduate

## Work Experience

### **2013-present - CTE Technology Support Specialist and Apple Administrator Birdville Independent School District**

Managed Apple clients using the following tools: Munki, MunkiReport, Reposado, AutoPkg, AutoDMG, DeployStudio, Docker, and more. Created technical guides and documented changes for managing our Apple fleet of computers. Created packages, wrote shell scripts, and implemented, from scratch, our management system for Apple clients using Open Source products. Provided support for the Career and Technology Education Department while working closely with Birdville's Technology Department.

### **2010-2013 - Audio Video Production Assistant Birdville Independent School District**

Assisted with teaching in the Audio Video Production department at Birdville ISD, included: editing videos, helping students with AV equipment, fixed application errors, and recorded district events. Help support with live Audio/Video needs within the building. In charge of updating the live signage including the a local cable channel (Ch. 192) throughout the district with the usage of Cisco's Media Manager System.

### **2006-Present - Computer Technician Personal**

Job Scopes: Windows virus removal, malware removal, upgrades, first time set-ups, data transfers, custom computer builds, teaching client software, email setups, re-imaging, remote management, optimized bandwidth usage, and optimizing system resources.

### **2009-2010 - Corporate Video Intern Birdville Independent School District**

Job responsibilities included video recording live events throughout the district, editing spots, and helping manage equipment in the audio video department. During this time, I volunteered to create promotional videos for the Dallas Cowboys Corral. Established the workflow which was used to play videos on our district's Cisco Digital Media Players.
